Impact Report

2025

Our mission and how we achieve it

Easyfundraising’s misson is to turn the everyday spending of daily life into a force for good. We do this by delivering easy to use and seamless technology that empowers individuals to turn simple, everyday actions into something good.

We operate a 3 sided model that connects supporters who want to raise funds for good causes with online retailers, who make donations when supporters spend on their website.

How does it work?

Causes are on-boarded to the easyfundraising platform once they have cleared our vetting process to check they are bone fide and meet our definition of being a good cause. We then provide advice and toolkits to the cause organiser – or ‘cause admin’ as we call them – so they can recruit people to become ‘supporters’ to the cause when they do their online shopping.

Industry recognition

Proud winners of Publisher of the Year at the Performance Marketing Awards 2026 and recognised as one of the UK’s Best Workplaces 2025.

“ We rely 100% on donations, fundraising and grants to support our work, as we receive no statutory funding. We are currently experiencing huge demand for our services, and extreme financial challenges, as our costs increase, so this extra funding is very gratefully received.

**We work at a hyper-local level
as well as with well-known national charities**

We support fundraising for good causes of all sizes, from well-known national charities such as Macmillan, Save the Children and Dementia UK, to thousands of smaller organisations rooted in local communities.

Around 75% of the good causes we support operate within their own communities, creating meaningful and often long-term change. These initiatives range from promoting inclusivity in health and fitness, to supporting disadvantaged groups, providing schools with additional learning resources, and enhancing local environments.

We reach these grassroots organisations through our extensive network of over 300 ‘cause partners’, umbrella bodies, national governing organisations, membership groups, and more.

Ultimately, easyfundraising offers a simple and tangible way for people to give back and support good causes across the UK and the local nature of the impact we enable helps strengthen the emotional connection between shoppers and the brands that they shop with.

“ As a community farm collaborating with our local community to tackle food insecurity in our city, we spend a lot of time generating the revenue we need to keep the project on the road. The process of joining easyfundraising so far has been easy and simple, which, in a funding world that is often long and complicated, we are very grateful for.”

“It’s such an easy way to raise funds for the school without costing parents anything extra when money is already tight. I’ve been surprised by how easy it is, and just how many retailers are on the platform. It’s quite rare that I check for an online retailer and they aren’t on easyfundraising!
